PROFESSIONAL SUMMARY

Third-year Honours Bachelor of Information Sciences (Cybersecurity) student at Sheridan College, building on a Computer Systems Technician diploma from George Brown College with a foundation in IT infrastructure, networking, and system administration. ISC2 Certified in Cybersecurity (CC), with Cisco CCNA training in routing, switching, and network security, and hands-on lab experience through TryHackMe. Seeking co-op opportunity to apply these skills in security monitoring, threat detection, and incident response within a collaborative security team.

EDUCATION

Honours Bachelor of Information Sciences (Cybersecurity) May 2025 – Aug 2028
Sheridan College, Oakville, ON

Diploma, Computer Systems Technician 2019 – 2021
George Brown Polytechnic, Toronto, ON

TECHNICAL SKILLS

- **Security & Risk:** Security Monitoring, Threat Detection, Incident Response, Vulnerability Assessment, Risk Assessment, NIST, MITRE ATT&CK, OWASP
- **Networking:** TCP/IP, DNS, DHCP, VPN, Routing & Switching
- **Security Tools:** Wireshark, Nmap, Burp Suite, Metasploit, Kali Linux
- **Systems:** Windows, Linux, Windows Server, Active Directory
- **Programming:** Python, Bash, C/C++

HANDS-ON LAB EXPERIENCE

- Completed TryHackMe's "Cyber Security 101" guided labs, covering network traffic analysis (Wireshark), host/service discovery (Nmap), web application testing (Burp Suite) and exploitation (Metasploit) on Kali Linux.
- Built and configured network topologies in Cisco Packet Tracer, applying routing, switching and subnetting concepts from CCNA coursework.
- Completed Active Directory labs - creating and managing users, groups and permissions in a Windows Server domain environment.

EXPERIENCE

GardaWorld — Brampton/Toronto, ON June 2020 – Present
Security Guard (Part-time)

- Progressed through multiple postings - Control Room Dispatcher, Mobile Patrol Supervisor, Data Center Control Room Guard, and Gatehouse Security — monitoring operations and identifying and escalating incidents per established protocols.
- Managed access control and site activity monitoring, documenting incidents and communicating critical information to supervisors and stakeholders.
- Coordinated incident response across postings and maintained accurate documentation to support investigations and follow-up.

Team Lead — Portside Warehousing & Distribution, Milton, ON Nov 2023 – Oct 2024

- Led a team of 12 employees, coordinating daily operations and setting priorities to achieve operational goals.
- Conducted inspections and identified issues for corrective action or escalation, maintaining operational standards.
- Trained staff on procedures and equipment, and compiled documentation to track performance and efficiency.

Head Shipper — MD Food Transport, Brampton, ON Jul 2021 – Nov 2023

- Verified orders and shipping documentation for accuracy and timeliness in a deadline-driven logistics environment.
- Identified and escalated equipment and process issues affecting daily operations.
- Resolved receiving and shipping issues in accordance with established procedures.

CERTIFICATIONS & TRAINING

- ISC2 Certified in Cybersecurity (CC) — 2025
- TryHackMe Cyber Security 101 - 2025
- CCNA: Routing and Switching Essentials
- CCNA Enterprise Networking, Security, and Automation
